DigitalMeeting for Serviced Offices

It's all part of the service...

As you will know Business Centres are having to be increasingly sophisticated in their offerings to clients. This can be quite a challenge when they must also offer competitive rates for all size of companies.

The solution of course is to provide your clients with a spectacularly added value service but without any cost to yourselves - but of course that is not possible.

Or is it?

One thing that holds back your clients' company growth is the sheer amount of time and travel costs involved in firstly pitching to clients and then supporting them. When they are travelling they cannot be working and of course their billing time is impacted. If you were able to offer an effective, tested and simple alternative do you think they would be interested?

DigitalMeeting provides a unique audio video web package which gives them the opportunity to share and discuss information in a totally secure environment and regardless of whether the participants in that meeting are at work or at home, in the UK or abroad.

If they need to share computer files collaboratively they can do so – whether this is a marketing document that needs agreement or a complicated Excel spreadsheet demonstrating the commercial benefit of a service.

And of course, *DigitalMeeting* allows you to offer a cutting edge business tool in a cut throat environment. What is more this can be branded to your organisation in order to appear as if this is just one more excellent service you are offering.

You might be interested to know that we also provide users with regular reviews on the effective use of *DigitalMeeting* and can offer them advice and training on how their staff can use this simple method to make enormous savings overall.

What else can we tell you?

- It can be uploaded immediately
- There are no set up fees
- Guests use a free phone number
- You pay as you go
- Unquestionable ROI
- You need no new hardware
- You need no new software
- You just need to contact us to start offering *DigitalMeeting* IMMEDIATELY

Don't just take our word for it

Alongside the standard 24/7 customer care we want to ensure you get the most out of *DigitalMeeting* which means we also offer:

Business plans – to show precisely where and how you can benefit from the service.

Quarterly reviews – to ensure that *DigitalMeeting* is being efficiently integrated within your day to day activities.

Training – so that everyone in your organisation is comfortable with the product and able to use it effectively.

Whatever the size of your company we know *DigitalMeeting* will decrease your travel time and expenses and increase your billing capacity and level of customer service.

Don't just take our word for it:

"As a small growing business, trying to do business internationally, we have found *DigitalMeeting* to be an invaluable tool. Ease of use was important and the support of the team at technilink is much appreciated"

Ron Carmichael Director Arcturus Ltd

Arcturus[★]
Hedge Fund Advisory

"Our product development team consistently has to interface with our manufacturing and design partners who are both based hundreds of miles away, incurring considerable costs. Now that we have been using *DigitalMeeting* we have made huge savings in time and money"

Paul Robinson FD Guy Kremer
